

Name  
**Baito**  
Sex  
Male  
Approximate age  
5 years  
Scientific name  
*Panthera tigris*

Time for a Close-Up

Can you see that tigers have:

Four huge fangs!  
They look very different from their other teeth

Black lips!

Thick whiskers on their cheeks

A short mane all around their face

Tiger

facts ...

- 1 Be careful when a tiger shows its bottom like this
- 2 It's about to mark its territory with pee!
- 3 The breeze helps spread the smell far away to warn other tigers
- 4 Otherwise, they squat to pee

Tiger

Look at his big tongue!  
It's rough like sand paper, which comes in handy for grooming and for stripping meat off bones. Yum.
